

BENCHMARK NOW!

Benchmark Now! is a suite of on-line assessments for grades 3-12 that are tied to the Common Core State Standards

12 Mathematics Assessments

9 ELA Assessments

Use each grade-level specific assessment to identify student strengths and weaknesses by standard.

Perfect for practice and preparation for the SBAC or PARCC assessments

Includes Technology-Enhanced Items (TEI)

ARE YOUR STUDENTS READY FOR THE COMMON CORE?

AVAILABLE NOW

Benchmark Now! is a suite of on-line assessments for grades 3-12 that are tied to the Common Core State Standards.

PROFESSIONALLY DEVELOPED

Benchmark Now! assessments have been professionally developed using questions from the Inspect Item Bank and are available for Grade 3 – High School. The item bank is an extensive selection of questions that are aligned to Common Core State Standards.

The assessments have been developed to fairly assess student knowledge and provide meaningful interpretation of student understanding of the Common Core State Standards. The items are aligned to Webb's DOK levels. Each assessment contains items spanning our four levels from Level 1 (Recall), Level 2 (Skill/Concept), Level 3: Strategic Thinking), and Level 4 (Extended Thinking). These assessments make benchmarking fast and easy.

SCORING AND REPORTING

With automatic scoring and built-in

reports, teachers gain a clear understanding of student proficiency quickly and easily.

Teachers have the option to engage students more than just selecting a correct answer to a question. They can use better assessment practices such as asking students to rate their confidence and reflect on their performance. Both practices are research proven self-assessment techniques that develop students' metacognition, increase learning, and provide teachers a deeper understanding of student performance.

USE ANY DEVICE WITH BENCHMARK NOW!

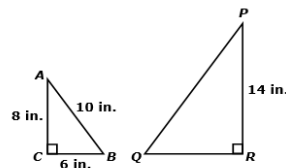

Benchmark Now! is powered by Naiku’s cloud-based assessment engine, allowing students to use any web enabled device – such as tablets, laptops, and smartphones – with the benefits of automatic scoring and immediate, standards aligned reporting for the teacher. Naiku works with most every OS and browser including Android, iOS, Windows, MacOS, ChromeOS and IE, Safari, Firefox and Chrome.

Students see and answer each question with an intuitive, easy-to-use interface on their device. Benchmark Now! automatically recognizes small screen devices such as smartphones and generates an optimized UI. With autoscoring, teachers can watch progress in real-time and have access to immediate student and class performance reports from any web-enabled device.

MATHEMATICS ASSESSMENTS

Benchmark Now! Mathematics assessments are available in Grade 3-High School (Algebra, Algebra II, Geometry, Math I, and Math II). Each assessment contains 28-36 items. Results on all Math assessments are reported by Common Core Mathematical Practices and standards to help teachers identify skills needed for further instruction

Right triangles ABC and PQR are shown below, where $\angle A \cong \angle P$.

What is the area, in square inches, of triangle PQR ?

square inches

1	2	3	+	$\sqrt{\square}$	\square	x^{\square}	$ \square $	<input type="button" value="✕"/>
4	5	6	-	$\sqrt[3]{\square}$	$\frac{x}{\square}$	x^{\square}	(\square)	<input type="button" value="◀"/>
7	8	9	×	·	\pm	π		<input type="button" value="▶"/>
.	0	=	÷	≤	<	>	≥	CLR

Sample Math Item: Student asked to use online equation-editor/calculator to find the area.

ELA READING ASSESSMENTS

Benchmark Now! English Language Arts reading assessments are available in Grade 3-11. ELA assessments contain both informational text and literature passages. Standards from the following strands are assessed: Reading: Literature, Reading: Informational Text, Reading: Foundation Skills, Writing, Speaking & Listening, and Language. Each assessment contains 37-39 items. Results on all ELA assessments are reported by Common Core standards to help teachers identify skills needed for further instruction.

A student is writing a story for a teacher about how he spent his Saturday. Read the draft of the story. For each underlined word pair, click on the word that best connects the story.

On Saturday, Mrs. Andrews had a lot to do, so she asked her son Sam for some help.

"Next / First we have to go to the grocery store," Mrs. Andrews explained. "We need to pick up chicken, soup, vegetables and bread."

"During / After that, can we go to the bookstore?" Sam asked hopefully.

"If we have time, but / and after / before we can do that, we have to stop by the bank. It is only open until noon.

"Until / While we are driving, can I choose the radio station?" Sam asked.

"Sure! I like most of the songs on the radio except / during the very loud ones," Mrs. Andrews stated.

"So, do we have to go anywhere else besides / between the store and the bank?"

"Only the bookstore," Mom said with a wink.

Sample EA TEI Item: Students are asked to edit the draft paragraph by selecting the best word to connect the story.
