

FOR IMMEDIATE RELEASE

## PowerSchool Certifies Naiku Assessment Software for Integration

*Certification for SSO, Data Exchange, and User Experience part of new PowerSchool ISV Partner Badging System*

(BLOOMINGTON, MN) September 17, 2015 – [Naiku](#), provider of award-winning, next-generation classroom assessment software, announced that Naiku is an original member of the new [PowerSchool ISV Partner Badging System](#). The badging system, recently announced by PowerSchool, is designed to better inform users about the capabilities and level of integration between the PowerSchool SIS and independent software vendors (ISV).

Naiku is one of 15 products, and the only assessment product, to receive certification. As part of the certification process, Naiku was independently evaluated by PowerSchool staff for Single Signon, Data Exchange, and User Experience, earning certification badges in all three areas. “Our school customers that use PowerSchool love the integration – with no account setup, single signon, and direct transport of assessment scores to PowerTeacher it helps them seamlessly use Naiku to aid teaching and learning”, said Greg Wright, CEO of Naiku.

Derrek White, Director of Technology for Iron Mountain Public Schools, added: "Paired with Naiku's excellent support and willingness to implement customer suggestions, the PowerSchool integration creates a highly valuable tool for our teachers. Not only can they create powerful assessments that can be taken on virtually any device, now they can quickly record grades in a simple and efficient manner."

[Naiku's cloud-based software](#) is used by schools and districts to quickly measure and track each student's proficiency of standards in any subject and grade, and is used by individual teachers as well as by groups of teachers with [common assessments](#). Naiku can be used to deliver existing assessments in a wide variety of formats, including Word, PDF, ExamView®, TestGen, Moodle, QTI, Schoolnet, and more. Additionally, teachers and district staff can create and share their own questions and tests with the platform's built-in test generator.

For more information about Naiku's integration with PowerSchool, visit [www.naiku.net/powerschool](http://www.naiku.net/powerschool).

### **About Naiku:**

Naiku is devoted to improving K-12 learning by providing next generation, learner-centric, classroom assessment software. Naiku provides educators the ability to readily measure and monitor student progress using any web enabled device and engage students through unique teacher-student interactive feedback tools. Naiku allows educators to create, share, import and deliver standards aligned quizzes and tests in any subject area. With automated scoring and built-in reports, teachers can differentiate instruction and data can be shared across the school and district to enhance best practices. With Naiku, Better Assessment leads to Better Learning. For more information, visit [www.naiku.net](http://www.naiku.net).
